

Transferring FieldNotes licenses from one computer to another

Open license wizard:

1. Open license wizard

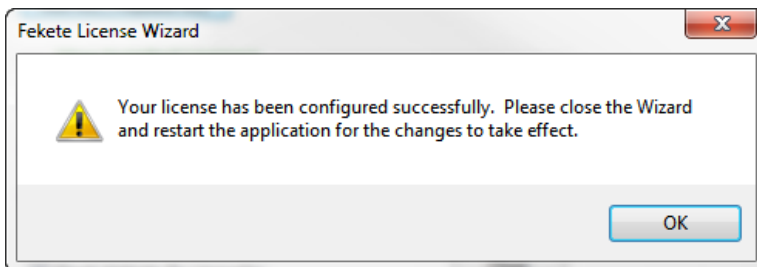

2. Select the "Local License Setup" tab
3. Send WDSS a Screen shot of the "Local License Setup" tab
4. Under "View Installed License" there should be a "Software Key" visible select the software key and copy (ctrl-c) it to the clip board.
5. Open NotePad and paste the software key there or write it down. You will need it later.
6. Send WDSS a Screen shot of the "Local License Setup" tab so that we can confirm the software key when we unlock the license.
7. Copy the software key into word or notepad so that we can use it latter
8. Press the "Delete Selected Key" agree to the prompts
9. Send WDSS a Screen shot of the "Local License Setup" tab (**upon receipt WDS will unlock the license**)
10. Close license Wizard.
11. If you haven't already installed Fieldnotes on the new computer do so now.
12. Open the License Wizard.
13. Select the Local License Setup tab
14. Under "View Installed License" there should be NO "Software Key" visible
15. Press "AddKey/Replace Key"
16. In the popup enter the software key you saved from the old computer.

17. Press Ok.

18. Press Ok.

19. Close License Wizard.

20. Wait 3 minutes for things to happen in the background

21. Open FieldNotes.
